

WELCOME TO THE CITY OF MENDOTA

The City would like to welcome you and provide you with the following information regarding water, and refuse.

The City of Mendota is dependent on groundwater for its water supply. Residents are encouraged to conserve water in their personal use and particularly for landscaping irrigation. Because we are committed to conservation, the following outdoor watering schedule is in effect throughout the City:

- Customers with **EVEN (ending in 0,2,4,6,8)** numbered addresses will be allowed to use water outdoors on Tuesdays, Thursdays, and Saturdays.
- Customers with **ODD (ending in 1,3,5,7,9)** numbered addresses will be allowed to use water outdoors on Sundays, Wednesdays, and Fridays.

During your watering day, you are not restricted to a particular hour for watering. Please keep in mind that watering earlier in the day will reduce the amount of evaporation that occurs.

THERE IS NO OUTSIDE WATER USE ALLOWED ON MONDAYS

During the hot summer months the City requests that you do not waste water. Please follow the above water schedule.
